COUGH MEDICINES should be so con \$17 174 81 ed that they can be taken "little and often."
\$16 254 77 It is the throat and chest, not the stemach,

> The head of the Gorgon, which according to the ancients, was affixed to the shield of Medusa, had a very peculiar capillary covering—each hair was a venomous serpent, and the effect upon all beholders was immediately to turn them to stone, Such a head of hair could have been a

less uncomfortable to its owner than to others, but would be no more trouble to a modern lady than the premature whitening to which all are liable. Hairs do not often the wearer, but they turn gray and become diseased at the roots, and fall out; and baldness too commonly ensues. A sure preventa-tive and remedy for this is the use of "Barrett's Vegetable Hair Restorative," as many a lady and gentleman have truthfully testi-fied. Try it.

For the express purpose of retailing their goods to consumers at Wholesale Prices. The immense profits which have herelofore been put upon teas and coffees by the producers, the importers, the jobbers, brokers, speculators, wholesale dealers and finally by the retail country merchants, have so enhanced the prices of those essential articles of every-day life, that many consumers have been obliged to stint themselves, or abstain altogether from the use of Tess and Coffees. It is a fact well known to those who are familiar with the condition of the tes market, that those goods are frequently retailed by small dealers in the country at twice or thrice their original value, and are sven then so adulterated and declared by unprincipled speculators as to be really declared by unprincipled speculators as to unfit for the uses of any good and well household.
